## Career Objective

---

Motivated and detail-oriented student eager to apply programming and problem-solving skills in real-world projects. Passionate about continuous learning, teamwork, and developing practical solutions that create a positive impact.

## Education

---

**Vignan's Institute of Engineering for Women**, Visakhapatnam 2022 – 2026  
B.Tech in Artificial Intelligence and Machine Learning

## Skills

---

**Programming Languages:** Python, C , DSA(Basics)

**Web Development:** HTML, CSS

**Database:** My SQL

**Core Subjects:** Operating Systems, Computer Networks

## Projects

---

### Event Booking System (SQL)

- Designed a database-driven application to handle event registrations and ticket management.
- Implemented optimized SQL queries for faster data retrieval and updates.
- Ensured data integrity with proper constraints and normalization techniques.

### Expense Tracker (Python)

- Built a Python-based application to track and categorize daily expenses.
- Incorporated data storage for historical expense analysis.
- Added basic reports and summaries to help users manage budgets effectively.

### File Organizer (Python)

- Developed a Python script to automatically organize files into folders by type.
- Reduced manual effort by automating file management tasks.
- Implemented error handling and logging for smooth execution.

## Internship

---

**HMIES Company** (AI & ML Domain)

- Worked on AI and ML concepts to build data-driven solutions.
- Gained practical exposure to model training and evaluation.
- Collaborated with team members to implement and test algorithms.

## Certifications

---

- HTML Certification (Bitlabs)
- CSS Certification (Bitlabs)
- SQL Certification (Bitlabs)
